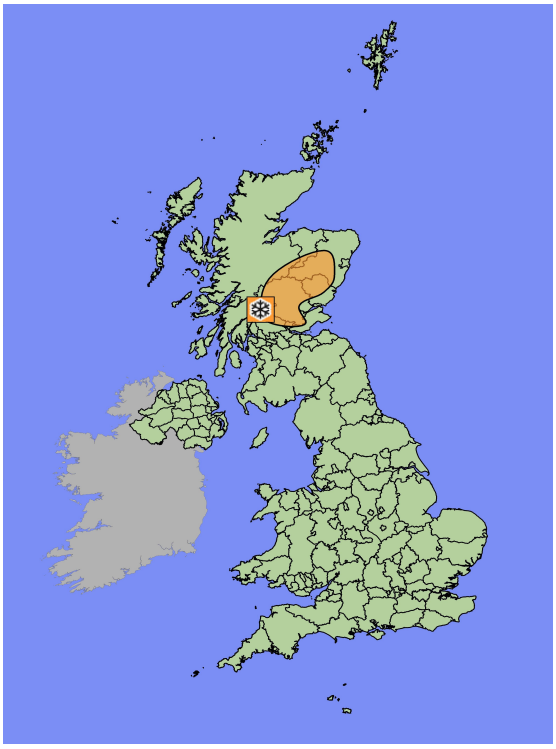
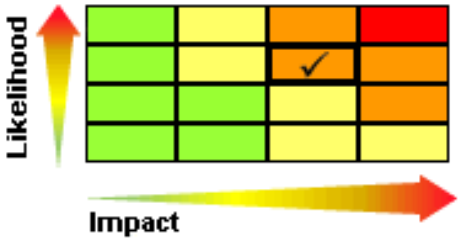
National Severe Weather Warning Service





Chief Forecasters Assessment
A frontal zone moving slowly northwards will bring further heavy snow to parts of eastern Scotland on Monday, overnight and into Tuesday. Blizzard conditions are likely on hills in the strong to gale force easterly winds.

The Met Office have issued an **Amber Warning** of **Snow**

Valid from **06:00 on Mon, 21st Jan 2013** until **15:00 on Tue, 22nd Jan 2013**

Persistent snow will continue to affect much of eastern Scotland for the rest of Monday, Monday night and on Tuesday.
In the Amber area additional falls in excess of 10 cm are likely with drifting in the strong to gale force easterly winds. Further accumulations of 20 cm or more are likely on ground above 250-300 m with blizzard conditions at times .
The snow should become lighter from the south during Tuesday afternoon as the winds also start to subside. The public should be prepared for the risk of further disruption to travel, and the likelihood of road closures, as well as possible disruption to power supplies.
This update extends the warning into Tuesday.
